

PreRoll-Er™

PROVEN SOLUTIONS
FOR CANNABIS AUTOMATION

COMPATIBLE WITH BOX-FILLING
SYSTEMS AND DEDICATED TRAY

BoxFinish-Er

BoxFinish-Er

Take your tray (previously filled) and just put it inside the machine to finish your prerolls production.

The BoxFinish-Er will reduce costs drastically while producing a higher quality and more consistent product.

Functionality options:

Pick / twist

Pick / Crown (flat top)

Pick / Oil injection

Pick / Twist / Crown (flat top)

Pick / Crown (flat top) / Oil injection

Pick / Twist / Crown (flat top) / Oil injection

What People Are Saying

"Every pre-roll that comes out of the machine is perfect. Our operators find the machine very easy to work with and make adjustments to."

"One of the things that impressed us about Procepack is their after-sale service. Both technicians and administrative staff have made site visits."

Technical Info

Highlights

Replaces 4-5 operators per shift (rapid ROI)	Compatible with 0.25 to 3 g pre-rolls
Compatible: RocketBox, Knockbox and dedicated tray	Quick commissioning
Easy cleaning / Toolless change over / Low maintenance	Robust, built to run 24/7
Excess-tip cutting station	Premium flat top finish
Production capacity: up to 20 pre-rolls / min	Dimensions: 62" (L) X 28" (W) X 37" (H)
User friendly	Works with infused cannabis

Technical Details

Electrical: 100-120 VAC / 1 Ph / 15 A
Air: 100 PSI / 5 CFM
Festo pneumatic and servo motor
Weight: 350 pounds

Options

Direct joint oil infusing system
Version 2 for bigger trays
Production data acquisition
Twist, cut and flat top (crown)
