Grow at your pace

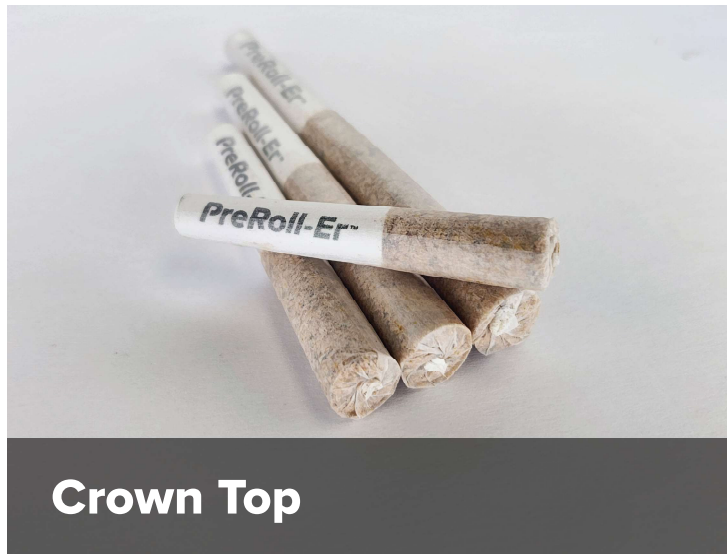

The PreRoll-Er 400 is a modular system to grow at your pace. The PreRoll-Er 400 provides the most units per hour at the highest quality. You will be able to control every aspect of your pre-roll production, collect data, monitor performance and save your recipes. We provide the smallest footprint in the category.

What People are Saying

“Every pre-roll coming out of the machine is perfect. Our operators find the machine very easy to work with and it's easy to make any needed adjustments.”

“One of the things that impressed us about Procepack is their service after the sale. Both technicians and administrative staff have made site visits.”

Technical Info

Highlights

Replaces 20-28 operators per shift (rapid ROI)	Very accurate and stable
Adapts to all cones, blunts and straight tubes	Weight from 0.25 to 3 g
Easy cleaning / Toolless change-over / Low maintenance	Scalable to your growth from 1 PreRoll-Er 100
Wide range of moisture levels and grind sizes	Optimal uptime with < 1.9% reject
Recipes / Data acquisition / Secure remote access	Layered advanced compaction
Production capacity: up to 2,600 pre-rolls/hr	Works with infused cannabis
Robot redundant cone feeding (no downtime)	Dual weight checking on each side (4 scales)
Cut flat (crown)	

Technical Details

Electrical: 200-240 VAC / 20 amps
Air: 100 PSI / Ethernet connection
Festo pneumatic and servo motor
Omron PLC and 15" colored TP - HMI
Dimensions: 111" (L) x 34" (W) x 77" (H)

Options

Vision quality control system
Plastic tube filling
Blunt filling
Infused cannabis performance kit
Cigarette style filling
