PreRoll-Er Line

PreRoll-Er Line

The PreRoll-Er Line is a multipurpose platform for tubes and jars with snap or twist caps.

Top Technologies

The PreRoll-Er Line is a monoblock that inserts one to ten pre-rolls in tubes and jars. The equipment closes or screws cap and applies label. It comes in 4 different models:

- Fully automatic for screw cap
- Fully automatic for snap cap
- Semi-automatic for screw cap
- Semi-automatic for snap cap

What People are Saying

“Every pre-roll coming out of the machine is perfect. Our operators find the machine very easy to work with and it's easy to make any needed adjustments.”

“One of the things that impressed us about Procepack is their after-sale service. Both technicians and administrative staff have made site visits.”

Technical Info

Highlights

Connects to the PreRoll-Er family	Single or multihead labeling (excise)
Up to 40 tubes or jars per minute	Video gallery on HMI for maintenance
Cap closing for screw or snap	Remote access
Robot arm pick and place integration	Compatible with tubes and jars
Tube or jar sorting system	Rotating feeding table for jars
Insertion of 1 to 10 pre-rolls	Toolless change parts
